

KZ Sports Marketing was created by the passion and vision developed over my 15+ seasons in the world of professional sports. As a life-long product of Long Island, I developed a love for sports at an early age. That love turned into a passion once I began my career in the professional sports industry.

With KZSM, I've created a home for those companies, charities, and avid sports fans looking for a chance to meet their favorite professional sports stars, organize the corporate or charity event of their dreams or promote a product or cause. College students have a place here too as I provide consultation on how to break into this industry with various internship/volunteer opportunities, stadium/arena tours, exclusive "behind the scenes" access and experiences.

KZ Sports Marketing is ...
